

The Simulator Team

Meeting Date: February 08, 2023
Start Time: 3 PM
End Time: 4 PM
Attendance: Olivier Germain, Julien Marck, Vamsi Sai Poludasu, Akhila Sirikonda, Laxmi Priya Pulipaka , Nagendra Babu Disamcharla, Juhi Malepati

Items Discussed

- Discussed what technologies can be used.
- Discussed and clarified doubts about how the digital twin should be created.
- Briefly discussed the requirements document.
- What input parameters should be given to get the required output?
- Discussed the system architecture and UI design in requirements document.

Decisions Reached

- The UI/UX design should be simple and given the last preference.
- The python code will be improvised, and more parameters may be added to the code.
- The input parameters that are mentioned in the PowerPoint presentation sent by Olivier can be used to get the desired output.
- The progress of the project such as the code, and the test cases should be updated every week.

Items for next meeting

- Get more knowledge about Github.
- Get started on the physical or software architecture of the project.
- How to push the webpage.
- How to do the database design.
- Learning to manage the deployment pipeline.
